Project title	WeALLCARE, a Citizen Alliance for an Ecosystem of Resilience
Objective	We aim to organise a series of public events to debate, reflect and exchange good practices on European solidarity in times of crisis, the link between solidarity and citizen participation and the new challenges it faces in the new scenario of the pandemic crisis, charged with uncertainty and specific challenges. Through these activities, we plan to establish a long-term alliance between the participating European regions and cities to maintain open channels of dialogue between citizens and Administrations and other parties, to promote active citizen participation and strengthen resilience in the new scenario of the pandemic crisis. Ultimate purposes: promoting mutual knowledge and common values for finding transnational solutions to contribute to multilevel governance, to the Union's political agenda and to strengthening European integration.
Project activities	<ul style="list-style-type: none"> - Study and debate workshops, conferences, face-to-face and online webinars. - Collective audio-visual work. - WeALLCARE web site: long-term meeting and dialogue space, exchange of good practices and knowledge repository.
Target groups	Wide range of citizens, young and elderly people, minorities, disabled. NGOs and civil society organizations, public authorities, experts and other involved parties.
Targeted EU support	EUR 150.000
Partner profile	Regional and local public bodies, civil society organizations, educational or research institutions.
